PROFESSIONAL SUMMARY

AI/ML and Full-Stack Developer experienced in enterprise AI platforms, multilingual conversational systems, observability solutions, scalable backend architectures, RAG pipelines, LLM integration, GPU inference, and real-time streaming systems using Python, FastAPI, Laravel, Kafka, Docker, and vector databases.

EXPERIENCE

Intern — Pixel Consultancy, Salt Lake Sector 5, Kolkata | August 2025 – Present

- Developed AI-Powered HR Assistant platforms with multilingual conversational support, payroll workflows, attendance automation, and voice-enabled employee interactions.
- Designed AI-Powered Log Anomaly Detection & Auto RCA systems for anomaly detection, incident correlation, structured log analysis, and RAG-powered operational intelligence.
- Built multilingual Speech-to-Text → LLM → Text-to-Speech pipelines with low-latency streaming inference.
- Developed SRMB Steel AI Voice Assistant with RAG-powered retrieval, CRM integration, GPU-accelerated inference, and Bengali multilingual voice support.
- Built scalable Laravel-based e-commerce systems with authentication, checkout workflows, admin dashboards, and modular backend architecture.
- Researched Explainable AI (XAI) techniques involving counterfactual explanations for black-box ML models.
- Worked with JSON pipelines, MongoDB, API integrations, web scraping, Kafka, OpenTelemetry, vector databases, and lightweight LLM inference architectures.

PROJECTS

- AI-Powered HR Assistant for Healthcare Institutions — HTML5, CSS3, JavaScript, Tailwind CSS, AI APIs, REST APIs, Speech Recognition, Text-to-Speech
- AI-Powered Log Anomaly Detection & Auto RCA Platform — Python, MySQL, Kafka, OpenTelemetry, FastAPI, RAG, Vector Databases, Docker
- SRMB Steel AI Voice Assistant — Qwen 2.5 7B, Faster-Whisper, Indic TTS, FastAPI, FAISS, PostgreSQL, Docker, NVIDIA L4 GPU, WebSockets
- Full-Stack E-Commerce Platform Using Laravel — Laravel 12, PHP, MySQL, Blade Templates, JavaScript, Vite, Stripe API, REST APIs, Docker
- Explainable AI for Counterfactual Analysis on Black-Box Models — Python, XAI, Counterfactual Analysis, Machine Learning

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML) — University of Engineering and Management, Kolkata | CGPA: 7.91 | 2021–2025

Higher Secondary: Royal Academy — 79% | 2019–2021 | **Secondary:** Royal Academy — 73.5% | 2019

SKILLS

Languages: Python, SQL, PHP, JavaScript | **AI/ML:** PyTorch, TensorFlow, RAG, FAISS, Faster-Whisper, OpenTelemetry | **Backend:** FastAPI, Laravel, REST APIs, WebSockets | **Databases:** MySQL, PostgreSQL, MongoDB, Vector DBs | **Infrastructure:** Docker, Kafka, Linux, NVIDIA GPU Deployment | **Core:** DSA, DBMS, Operating Systems, OOPS, Machine Learning
